Republican Congressional Convention.

FIRST DISTRICT.—A Convention composed of *two* delegates from each Assembly District in the counties of Milwaukee, Waukesha, Kenosha, Walworth and Racine, (constituting the First Congressional District of Wisconsin,) will be held at the Court House, in the city of RACINE, on Tuesday, the 31st day of August, at one o'clock P. M., for the purpose of nominating a Republican candidate for Congress.

The several *Assembly District Committees* are requested to take measures for the appointment of delegates to such Convention from their respective districts.

Dated July 27th, 1858. District Committee.

The News.

The telegraph brings us some further details of the news by the *Persia*. The British forces have obtained additional successes in India. Hostilities have been resumed in China. The Continent is quiet. The prospect for good crops continued favorable and prices drooped in consequence. The money market showed an improved feeling.

The election in Louisville, on Monday, resulted in the success of the American ticket, and was marked, as usual, by a fatal affray.

The weather, for the past few days, has not been favorable for the labors of the harvest, and we continue to hear great and general complaints of damage done to the wheat crops.

The New York Market, yesterday, was rather heavy. In our own market, with light receipts, prices for wheat were well maintained, and another advance established in Corn and Oats.

Congressional Convention.

The attention of the Republican Electors in this, the First Congressional District of our State, is invited to the call, published in this morning's paper, for a Convention to be held at Racine on the 31st day of the present month, to nominate a candidate for Congress.

The La Crosse & Milwaukee R. R.—Only Ten Miles More!

The track of the La Crosse & Milwaukee R. R. is now within *ten* miles of its terminus on the Upper Mississippi and will *reach La Crosse* before the month is out. The work at the Tunnel is far advanced, and its certain completion looked for early in September. When their road is finished and open to La Crosse, there will be a grand celebration in honor of the event.

THE PURCHASE OF MT. VERNON.—Now that the ladies of the country, aided most materially by the eloquence of Mr. EVERETT, have made a large payment upon the estate of Mount Vernon, the grave of WASHINGTON, it is rumored that the niggardly and contemptible proprietor designs to remove the remains which rest there before transferring the rest of the property to the women of the Union. Mr. WASHINGTON'S speculations in walking sticks and in real estate are thought to prove him capable of even this act; but the question remains whether he can legally do it. The contract must be very loosely worked if it permit him to withdraw so large a part of the consideration. A purchase of the tomb of GEORGE WASHINGTON would probably be held to include the purchase of the contents of that tomb, unless they were specially excepted.—Meanwhile, the Mount Vernon Association is at work in all parts of the country, and is issuing appeals for funds to enable them to complete the purchase. How the blood of WASHINGTON ever came to its corruption and dishonor through the veins of such a venal, heartless speculator in the bones of an ancestor and the patriotism of his countrymen, as the present possessor of Mt. Vernon, is a peculiar mystery.

ENGLISH NOMINATED.—The Congressional Convention of the Lecompton Democracy of the Second (Ind.) District, was held at Paoli, Orange county, on Thursday. English was nominated for re-election on the first ballot. There is a very strong feeling against him even in his own party, and if a good man is put up against him in the opposition, he will be defeated.

TWO MEN DROWNED IN BARABOO.—The Kilbourn City *Mirror* learns that two men were drowned at Baraboo last Friday. They were running logs down the river to one of the mills, and in some way, by the breaking of the raft, were thrown into the river. They were both citizens of Baraboo, and both leave families. The body of one of them was recovered Saturday. The *Mirror* did not learn their names.

(From the Kilbourn City Mirror.)

Progress of the La Crosse Railroad.

Last Wednesday the track was laid a mile beyond Bangor, and within 14 miles of La Crosse; and at this time it is doubtless completed and the cars running to Salem, within 11 miles of La Crosse. When we were there the grading was all done to La Crosse except a few days' work on Perry's deep cut, and that was to have been completed by Monday of this week; so that there is now nothing in the way of laying the track the other 12 miles to La Crosse. Mr. Wells and Chief Engineer Woodward told us that the track would be completed to La Crosse by the First of September, and our opinion is that it will be completed by the 20th of August. Chamberlain and Wells are always ahead of the time.

The Tunnel is progressing rapidly, and will probably be completed by the First of October. The whole length of the Tunnel is to be 1,320 feet, or just a quarter of a mile. They first take out the upper part, some six or seven feet high, which they call the heading. The headings, from each end, are now a little less than three hundred feet apart, and will doubtless be together before the First of September. The work on the body is also progressing, but it will probably require the month of September to complete it.

Taking into consideration all the circumstances, the progress of the La Crosse road, for the last year, may be looked upon as the wonder of Railroading. With the times so severe as to paralyze nearly all the business of the country, and with the worst opposition any enterprise of the kind ever had, more miles have been built than upon any other road in the United States in the same time; and the progress has been beyond the expectations of any one, even in prospect of good times and favorable circumstances. The heavy work near the Wisconsin river was pushed ahead last summer beyond all calculation; sixteen or eighteen miles of road were built last winter in ten weeks, through a swamp this side of Tomah, covered thickly with spruce, pines, tamarack, &c., and tangled with underbrush; the road has been rapidly pushed up to the Dividing Ridge between the Wisconsin and Mississippi rivers; and there, where most contractors would have yielded, Messrs. Chamberlain & Wells mounted locomotives boarding cars, platform cars and passenger cars; let them down upon the plain below; kept a constant string of iron running over the ridge, and have almost completed forty miles of road beyond, as if no obstacle intervened; and at the same time the hole through the mountain for the passage of the engine and cars has been progressing with unexampled rapidity. If all this is not the wonder of Railroading what is? If Messrs. Chamberlain & Wells can be beaten as Railroad contractors, we would like to see it done.

TERRIFIC TORONADO IN IOWA.—We learn from the St. Charles, Floyd county, Iowa, *Intelligencer*, that on the 21st ult., a terrific storm visited that place and vicinity, doing great damage.—The rain fell in torrents, accompanied by thunder, lightning, hail, and a furious gale of wind.—This state of things continued for about one hour. Houses were unroofed, fences prostrated, chimneys blown down, and nearly all small out buildings were removed from their foundations if not destroyed. Several houses in the course of erection were demolished, and several barns blown down. The *Intelligencer* says:

To enumerate, we may say that in this village the tall and somewhat expensive flag-staff on the public square was blown down; the new two-story house of A. H. Buel, in process of construction, was entirely demolished. Mr. Brainard's house was removed from its foundation; D. Davidson's house was completely unroofed, leaving three or four children abed in the chamber, exposed to the elements; a log house, belonging to Dr. Palmer, and occupied by a widow woman and several children, was unroofed; the roof of Truman Gilbert's house, occupied by T. Simmonds, parted at the ridge and fell partially in; half of the roof to one side of J. Kelly's stable, was thrown to the ground; Mr. Kelly's flouring mill, which was in full operation at the time, ceased to grind, so great was the shock of the wind, when the gates were immediately shut down; one-half of the roof of the house occupied by Robert Frost, and owned by Dr. Palmer, was taken off; Wm. Ferguson's barn was demolished, various windows to stores and dwelling houses were blown in and broken, and signs and awnings were blown indiscriminately. The damage to buildings, &c., in the village must amount to several thousand dollars; while that done to the growing crops and fences in this vicinity, must be beyond computation.

Supreme Court.

SATURDAY, July 31.

Reynolds vs. Vilas—argument resumed and completed.

Staines et. al., vs. Tapran—Dane Circuit.—Argued by Abbott & Clark for Appellant, and by Smith & Keyes for Respondent.

Foster vs. Bacon—continued.

Monday, August 2.

Gregory vs. Hart—2 cases. Argued by Crawford & Knapp for plaintiff in error, and by S. U. Pinney for defendant in error.—*Madison Journal*.

SHIPMENTS OF WHEAT.—The shipments of wheat from this port for the month of July, we learn from Deputy Collector Ulmann's books, amounted to 120,654 bushels. The amount for June, 1857, was 92,070 bushels, making a difference in favor of June of this year of 28,584 bushels. The total amount shipped up to date this year is 736,321 bushels. To the same period last year it was 340,590 bushels, making a difference in favor of this year of 395,731 bushels, or considerably more than double.—*Racine News, August 2d.*

Steamboats.

FOR CHICAGO.—Steamer *Traveller* leaves every morning, (excepting Sunday,) from Johnson & Olmsted's Dock, at 9 o'clock.

The Steamer *Arctic* leaves every Sunday evening at 9 o'clock, from Johnson & Olmsted's Dock.

FOR TWO RIVERS.—The steamer *Cleveland* leaves every morning, (excepting Sunday,) at 7½ o'clock, from same place, for Two Rivers, stopping at Port Washington, Sheboygan and Manitowoc.

FOR GREEN BAY.—The steamer *Arctic* leaves for Green Bay, from Johnson & Olmsted's dock, every Wednesday, at 8 o'clock P. M.

FOR GRAND HAVEN.—The steamer *Forester* leaves Kellogg & Strong's dock every morning, (Sundays excepted,) at 8 o'clock, for Grand Haven—Detroit & Milwaukee R. R. connection.

FOR BUFFALO.—A line of propellers run to and from Buffalo, one of which leaves this city daily.

FOR OGDENSBURGH.—A tri-weekly line of propellers also run to Ogdensburgh.

GRIFFIN & BURNS, at the foot of East Water street, are the Ticket Agents for the above lines.

NEWHALL HOUSE—BOARD STILL $2,00 PER DAY!—The Proprietors inform us, that *the price of board has not been raised*; but on the contrary, they are determined to adhere to the reduction made last Spring. They charge *no person* more that $2,00 per day, unless extra accommodation is called for; and not then, unless the guest is informed before hand of the additional charge. We take pleasure in being enabled to set the NEWHALL right in this matter before the public.

Quickest Trip on Record—Twenty-five Hours from St. Paul to Milwaukee.

Passengers who left St. Paul at half-past four o'clock on Monday afternoon, arrived in this city at a quarter past six P. M., yesterday. The splendid steamer *Milwaukee*, which brought them down the river, made the trip from St. Paul to Prairie du Chien, (802 miles) in *fifteen hours, forty-six minutes*, having made six landings, and stopped once to take on 20 cords of wood. This is the best time ever made on the Upper Mississippi, and entitles the *Milwaukee* to carry the broom. Travellers bound to Minnesota will find the *Milwaukee* a swift, elegant and commodious steamer, well officered and admirably managed.

The following is a list of her officers:

STEPHEN HEWITT, Captain.
James Rice, Mate.
George McKinstry, 1st Clerk.
George Cady, 2d do.
A. M. Grant, John Gall, Pilots.
Henry Johnson, 1st Engineer.
Elias Owens, 2d do.

Many of the excursionists, ourself among the number, returned by the *Milwaukee*. Of the excursion itself, we shall have something to say to-morrow.

FURNACE EXPLOSION—SEVERAL PERSONS SEVERELY INJURED—TWO PROBABLY FATALLY.—A very peculiar explosion took place last evening between 5 and 6 o'clock, at the City Foundry, by which a number of persons were more or less injured, two of whom were so badly burned that it is feared they will not recover. We did not hear anything of the accident until a late hour last night, and upon going to the foundry we found it shut up, and quite deserted, but we learned the following particulars from persons residing close by:

The furnace had been in use a good part of the afternoon, and just before the explosion occurred the men had got done using it, and let the fire and hot ashes down into a receptacle underneath, which it seems contained water, and the great heat of the burning coals, and red hot ashes generated such a quantity of steam as to blow the furnace and cupola to attoms, scattering fragments in all directions. Two men who were standing close to the furnace, named ANTON BOWER and ADAM DREIS, were very badly bruised and burned, the former so severely, that the doctor who attended him thought it was impossible for him to live. He was scalded from head to foot in a dreadful manner. The other had his face and shoulders considerably burned, and though his life is imperiled he may get over the effects. We could not learn the names of the others who suffered, but those we have mentioned are the only persons who are in a dangerous condition.

The explosion made a a report that was heard for the distance of more than a block, and the shock was distinctly felt in all the houses in the immediate vicinity. All the windows in the building were broken to "smithereens." Several of the workmen were thrown from one end of the Foundry to the other, and one of them came bounding through a side window, and landed sprawling upon the side walk, but whether he was impelled by steam or fright does not distinctly appear.

RENTS.—J. S. FILLMORE has a good house on Biddle street, near Cass street; rent $400. Also a good house on Jefferson street, near Oneida street; rent $250. Both houses have good wells, cisterns and yards.

Common Council Proceedings.

MAYOR PRENTISS PRESIDING.

On Monday night the Board of Councillors had a regular meeting.

After the transaction of the usual preliminary business, Councillor Waldo presented a petition from Constables Schoeffler and Guenther, asking that they be paid higher salaries, inasmuch as they had to act as Policemen, under the Amendments. They asked to be paid $33 a month, the same as the Policemen.

Councillor Hadley stated that he had a petition which he wished to present in connection with that. His petition was from the Police corps, and was signed by every member of the force, asking to have their salaries raised; that they did not now get enough to support themselves decently, and they were paid in orders, which they had to get cashed at a heavy discount. They therefore asked that they be paid hereafter in cash.

Councillor Hadley, moved that both of the petitions be referred to a select committee of one from each Ward, which was adopted. The committee was afterwards appointed by the Chair, and consists of Councillor Hadley for Chairman, and one from each of the other Wards.

A petition was presented for a new engine for No. 3. Referred to the Committee on Fire Department.

Some citizens of the Fifth Ward petitioned for the erection of lamp posts in the vicinity of Vliet, Greenbush and other streets in that Ward. Referred to the Committee on Gas Lights.

A bill from the *See Bote*, for advertising, was reported adversely to, on the ground that that paper had not been authorized to do the advertising, but had copied it from the *News*, and charged the City therefor.

Councillor Hadley stated that the *See Bote* had been in the habit of doing so, and charging in that way, and said it ought to be paid, and he thought it was a scheme to oppose the printing of the Council proceedings in the German language.

Councillor Waldo would like to inquire what more authority had the *See Bote* to publish Council matters, without directions to do so, than any other paper? He gave Councillor Hadley to understand that his Buncombe speech was entirely unnecessary, inasmuch as he did not oppose paying the *See Bote*, nor was he opposed to the Germans. But he merely asked for some information on the subject.

The subject was finally referred to the Committee on Printing.

A long list of recommendations from the Street Commissioners, for grading and otherwise improving certain streets, were presented and referred to the Councillors of the Wards where the improvements were asked for. They were in substance as follows:

For grading, &c., Elizabeth street, in the Eight Ward. Referred to Eighth Ward Councillors.

For paving gutters, &c., in Huron street, Third Ward.

For grading, &c., Walker street, from 5th to 6th Avenues, in the Eighth Ward.

For grading, &c., Marshall street from Lyon to Brady.

For grading, &c., Brady street, from Racine to North Water.

For grading, graveling, &c., Marshall, from Wisconsin to Division streets.

For grading, &c., part of 7th street, in Fourth Ward.

For plank sidewalk in front of Lots 3 and 4, in B 117, in Seventh Ward.

For grading, &c., Fond du Lac Avenue from west side of Crocker street.

For grading, &c., Jackson street from Division to Brady, in First Ward

For grading, &c., 6th street from Spring to Wells, in Fourth Ward.

The resolutions, &c., passed by the board of Aldermen on the 26th of July, were taken up.

The report of the committee on schools, and accompanying resolution, requiring the Board of School Commissioners to report to the finance committee of the Council, for approval or rejection, all outlays exceeding the amount of $10, which had to be paid for out of the city treasury, was referred to the committee on schools of the Board of Councillors.

The resolutions relative to the High School, adopted by the Board of Aldermen, were about being read, when the Mayor decided that they did not call for the joint concurrence of both boards.

Councillor Hadley moved that they be read, but the Mayor ruled the motion out of order; when, however, under a suspension of the rules the motion was put, and the board refused to hear the resolutions read.

The following resolutions, which were adopted by the Aldermen, were read:

Resolved, By the Board of Aldermen, the Board of Councillors concurring, that the dredging on the Milwaukee River, that portion of said river which now lies below the Straight Cut Harbor, be and is hereby ordered to be stopped forthwith, for the reason that is uncalled for, inasmuch, that if the river was dredged out, the old harbor is out of order, and it is money spent for useless purposes; and a further reason, there has been no provision made for funds to pay with, and therefore Messrs. Hasbrouck & Co., are hereby notified to stop further work on that part of said river, for the city will pay for no work done on the same after the passage of this resolution. And further that E. & T. Sims be also ordered to discontinue work on contract for dredging the middle ground of the Milwaukee River above the Straight Cut Harbor.

Resolved, That the Clerk furnish Messrs. Hasbrouck & Co., and E. & T. Sims certified copies of the foregoing resolutions.

Councillor Hadley moved that they be referred to a committee of one from each Ward. The committee was appointed by the chair, and consisted of Councillor Hadley for Chairman, and one from each of the other wards.

The resolution authorizing the building of a house for Engine Co. No. 1 was read.

Councillor Waldo felt a reluctance at opposing the resolution, and he would not do so, if he could consistently help it. But we ought not to commence any kind of work, unless we can pay for it, just the same as an individual would do. Under the new amendments to the City Charter, we cannot levy a tax of over $60,000 for current city expenses. And this will be beyond the general average of years, if we collect four-fifths of this amount for general city purposes.

He summed up the current expenses to make $67,000,—$7,000 more than the charter allows for these purposes.

We cannot by any possibility go beyond $60,000. How can we get through the rest of the year on the small amount that is remaining to be allowed. If we consent to have this house built, we would have to pay for it by borrowing. But we cannot raise a tax for it, the charter saying expressly that we cannot issue bonds for it.

On the strength of these remarks, he moved that the resolutions be sent to the Finance Committee, and that they confer with the Chief Engineer, and see if he cannot reduce his estimate of the expenses of the Fire Department to less than $10,000, so as to allow Engine Co. No. 1 to build their new house.

The resolution was so referred.

The resolution adopted by the other Board relative to the paving of Division street from Marshall to Astor came up.

A remonstrance from Mr. Brodhead against paving part of the street without doing the whole, was presented by Councillor Waldo.—This part of the street was in as good condition as any other and Mr. Brodhead favored graveling the street.

The resolution from the Board of Aldermen was now laid upon the table, with the understanding that enquiries should be made about the necessity of paving between Astor and Marshall.

The reports of standing committees were next in order.

The Committee on Gas Lights reported on the petition for the appointment of Mr. Carroll as City Gas Inspector. The committee thought it desirable to have such a person appointed, and they moved that a candidate for the office be presented and decided upon. On motion of Councillor Hadley the matter was laid on the table.

The Committee on Police reported to allow the bill of Engine Co. No. 4, for services rendered as special police, at the destruction of J. H. Cordes & Co's building. Report adopted and bill allowed.

Coun. Hadley presented his report of the committee on schools, which has already been published. The substance of the report was to have plans drawn up and the cost estimated for a new school house building in the 5th Ward; to have the 2d Ward school house finished at once; to have the walls of the 3d Ward school house anchored and strengthened; to have a fence built about the 7th Ward school house, and to see what a school house lot could be got for in the 9th Ward. The report authorizes the joint committee of both boards to finish up old work, and do necessary work, and not to make any new contracts.

Coun. Waldo said he could not vote for any new improvements, at present.

Coun. Hadley said the purpose of the resolutions embraced in the report was to investigate and make a subsequent report, and not to commence any new work.

Councillor Waldo said it would be an expense to draw up plans for a new building, and he couldn't vote for a new school house in the 5th or any other Ward. He was not opposed to education, but we must be honest before we are liberal and enterprising. We had already anticipated the amount to be raised by tax. We cannot borrow money to go on with such works. At the same time he wanted it understood that he was second to none in interest in educational matters.

Councillor Hadley's resolutions were finally divided up and voted on separately, and the report and resolutions were adopted.

The Committee on Fire Department reported adverse to the formation of a new fire company in the 6th and 9th Wards, and moved that the matter be indefinitely postponed. After several motions and counter motions, the report of the committee, with motion, was laid on the table till the next meeting.

There being no quorum, the Council adjourned at a quarter past 11 o'clock.

Proposed Water Works.

At a meeting of about forty of our prominent citizens, called by request at the Council Rooms, yesterday P. M., to confer with some gentlemen from the East on the subject of Water Works for our city, on motion of J. H. VAN DYKE, E. D. HOLTON was appointed Chairman and G. D. NORRIS Secretary.

Mr. VAN DYKE stated the object of the meeting in a few words, and introduced Mr. HOY, of Trenton, N. J.

Mr. HOY stated that he and his associates were prepared to furnish the money, and build works sufficient to supply a city of 100,000 inhabitants, provided the city would guarantee to them a dividend of 8 per cent on the capital employed, (in no case to exceed $500,000,) from the time the works were completed until the revenue derived from water rents should amount to that per centage. After that the city to have what water was wanted for the use of fire plugs, &c., &c., free of charge forever.

Mr. WHITEWELL, of Boston, an experienced Engineer, made a few remarks as to the cost of the works; said the estimated cost, $490,000, was of necessity a rough estimate, and thought the proposition a very liberal one.

Mr. PERDICARIS, of Trenton, also made some very appropriate remarks.

Many other gentlemen took an active part in the discussion, and on motion a committee was appointed by the Chair to confer with these gentlemen, and for the purpose of obtaining information with regard to the cost, and to further the introduction of water. The committee are: J. H. VAN DYKE, ANTHONY GREEN, JAMES KNEELAND, ANSON ELDRED, WM. P. YOUNG, L. W. WEEKS, CHARLES QUENTIN, E. D. HOLTON, G. D. NORRIS.

G. D. NORRIS, Sec'y.

POLICE COURT YESTERDAY.—Catherine Warnke, charged with keeping a house of ill-fame, whose case was postponed from Monday, was examined and convicted, and fined $100 and costs. Justice WALWORTH, in pronouncing judgment upon the defendant, took occasion to say that, although there was no direct proof of the prostitution, it was very strong circumstantial evidence, the witnesses testifying that the character of the house had not changed since the previous conviction of the defendant, when she plead guilty to the charge of keeping a house of ill-fame.—He only doubted in his own mind whether it would be more just to impose the penalty of $100 in this case, or send the defendant to Waupun.

James Canavan, who was committed on Monday, in default of $1,000 bail, charged with committing an assault and battery upon the person of Owen Pouderly, was examined and acquitted. It was shown that the other party watched him as he came out of a shanty, on Sunday night, and attacked him first. According to the law, the complainant was the offending party, and the Court was obliged to discharge the defendant.

F. Thompson and C. Gilmore, for having a "set-to," were fined $5,00 each.

G. Dickey, intoxicated and disorderly, was fined $5. R. P. Wolf, same offence, was fined $10. Patrick Savage, drunk, fined $5. Byron Hurlburt, drunk, fined $5.

☞ By request of J. H. CORDES, Esq., we copy the following article from last evening's *Wisconsin*:

ÆTNA INSURANCE COMPANY—PROMPT PAYMENT—We have the gratification of announcing another instance of the promptness and fair dealing of this old and responsible insurance company. Our readers will remember the sad disaster that happened to the firm of J. H. Cordes & Co., of this city, by the falling of their store on the 15th of June last. Buried up in the ruins was an immense stock of goods, and, worst of all, five or six persons, two of whom were so much injured by the crushing of the building that recovery was impossible. Almost immediately after the fall, a fire broke out in the lower part of the ruins, which caused, temporarily, the greatest excitement and alarm. It was soon extinguished, however, by the efforts of our efficient Fire Department, but not until a large amount of valuable goods were damaged or destroyed by fire and water.

The Ætna Company had an insurance of $2,500 upon this stock of goods, and though Mr. Cordes did not succeed in preparing and presenting his proof of his loss to the agent, W. H. Holland, until the middle of July, the Company has to-day come forward and adjusted *and paid* its proportion of the loss, greatly to the relief and satisfaction of the survivors of the late firm.

Mr. Cordes takes pleasure in making known the honorable conduct of this excellent company, and of its very efficient and worthy agent in Milwaukee, and has desired us to make this publication, as he thinks the facts ought to be known and appreciated by all who have an interest in such matters.

COLD SPRING COURSE.—We are informed by Mr. BUSH, who has just leased this popular track, that a trot will come off this afternoon, at 4 o'clock, for a purse of $20, free to all gentlemen's driving horses, to road wagons, driven by owners. Immediately after which, a trotting match, for $100, will come off, between Mr. Bush's old stallion *Bellfounder*, and Mr. BURNHAM'S gelding *Sam Patch*, owners driving. Our sport loving citizens can have a rare chance to see some fun.

GOOD CHANCE FOR FARMERS.—We are gratified at being able to announce to the people of Western Grant county, that a Grain Depot is being erected on the M. & M. Railroad, at the Wisconsin Bridge, where responsible parties will, in a few days, be prepared to pay *Cash for Wheat* and produce; this will prove of immense advantage to the producers as well as to the Railroad Co. It will enable the farmers of a large district of country, to find a market at a saving of time and distance.

A large quantity of wheat which heretofore has found a market at Wyalusing and Cassville, will then pass over the M. & M. Railroad to Milwaukee, which, at *all seasons* of the year, affords a superior market.

We are highly pleased that our country is to be brought into such favorable connection with the opulent City of the Lake.—*Lancaster (Wis.) Herald.*

DETROIT LIGHT GUARD.—It is said that this fine corps of soldiers intend visiting our city on the occasion of the opening of the Detroit & Milwaukee railway, which event will take place sometime during the coming month.

Amende.

The undersigned, having, with some of our friends, published one or more cards in March and April, reflecting harshly on the Ætna Insurance Company, of Hartford, Conn., for applying, as we thought, improperly to the case of our loss, the clause in their and other policies touching damage to goods by removal, do hereby take this method of saying to all interested in the matter, that we now consider that the whole difficulty has resulted from misapprehension, and perhaps unnecessary misunderstanding in the case; and that we have, as we ever hitherto have had, the fullest confidence, not only in the ability but in the disposition of the Company to do that justice to all its policy holders for which it has deservedly so wide a reputation; and we do hereby expressly withdraw all that we have said or published disparagingly to the Company, or to those who have acted for it in the premises.

DONALDSON & TREDWAY,

Madison, Wis., May 21, 1858. aug4b41d6t.

☞ The Promenade Concert of the Milwaukee Musical Society will take place at MELMS' Garden, on Thursday, August 5th, 1858. To commence at 7 o'clock. Members of the Society are admitted free of charge, provided their dues being all paid, and their tickets taken previously at NIEDECKEN'S. Admission 25 Cents. In case of bad weather the Concert will be postponed.

BROCKWAY'S Omnibuses will run from Market Square and Spring street Bridge, to Melms' and back during the evening. aug4d2t.

A CAMERA OBSCURA, from Paris, is now fixed upon top of the Republican House, on the west side of the river, and open to visitors. It gives a life like picture of Milwaukee, and is well worth seeing. E. WEISNER offers it for sale.—It would be a a good purchase for an enterprising man. jy27b14d1w.

FROSTED HANDS AND FEET.—More than twenty have come in and said that "Prof. De Grath's Electric Oil" has cured them in *one day*—taken away all soreness. Ask James Garey, corner of Race and Twenty-second streets. He was getting out ice, and froze his hands badly. Come and see twenty certificates at the office like this: "No 251 Locust street, Jan. 12.—Prof. De Grath's "Electric Oil," 89 South Eighth street, has cured my frosted feet in *one night*—and it is the best article ever used for this purpose. CLIFFORD S. WHITE." There is no mistake—this Oil *cures*, and it takes but a little to do it. Beware of Imposition

LATEST NEWS!

BY MAGNETIC TELEGRAPH.

Arrival of the Steamer Persia.

ST. JOHNS, August 1.

A steamer from Europe passed Cape Race about noon yesterday, and handed to a fisherman four copies of the Liverpool Daily Northern *Times* from the 20th to the 23d of July inclusive.

Her name was not ascertained, and the customary despatch from our agent at Liverpool having failed to come to hand, we are unable to say what vessel it was.

The probability, however, is that it was the *Persia* from Liverpool on the 24th.

From the papers to hand the following summary has been made up:

The commercial advices are necessarily very imperfect, but the political news will be found of the highest interest, embracing as it does news of the re-capture of Gwalior by the British, and the taking of a Chinese fort mounting two hundred and thirty-eight guns at the mouth of the Pelho.

An official telegram to the foreign office, received on the 22d of July, states that the steamer *Canadian* arrived at Suez on the 17th, with dates from Calcutta to the 19th, Madras to the 24th, and Galle to the 29th of June, Hong Kong to the 7th of June, and Aden to the 11th July.

The forces under Sir Hugh Rose had retaken Gwalior after a severe engagement of about four hours.

The remainder of the Indian news is of an uninteresting description.

The news from Great Britain is generally unimportant.

FRANCE.—The Moniteur ridicules the idea of a French invasion of England. The Paris Conference closes on the 15th of August. La Presse complains of the unusual severity of the treatment of the press in the French colonies.

The epidemic prevailing at Bengalee was diminishing.

There is nothing later from the Atlantic Telegraph Fleet than is reported by the Vanderbilt.

LIVERPOOL BREADSTUFFS MARKET.—Although there had been large arrivals of wheat, holders were firm on Tuesday.

A moderate business was done and finest qualities realized Tuesday's prices, while the lower descriptions declined 1a2c for 70 pounds. Flour rejected, excepting the very best qualities of French and American. Common sorts 6da9d lower.

LONDON, 22d.—Consols 95⅛a95⅜. Money 95⅝ a95¾ account.

CHINA.—The fort at the mouth of the river Pelho, mounting 238 guns and backed by a large number of troops, was attacked on the 20th of May by British and French gun-boats and taken. The loss of the allies was trifling. The Chinese stood to their guns very fairly.

On the 22nd the forces commenced advancing up the river.

The weather was cool and the squadron was in good health and spirits.

Six thousand French troops, originally destined for Cochin China, were on their way to Pechade.

From Canton information was that on the 3rd of June an ineffectual attempt was made by the allies to route the Chinese braves on the mountains in the vicinity.

Nangpoo was in possession of the rebels, and the British merchants had gone on board of H. B. M. ship *Surprise*.

ST. JOHNS, N. F., Aug. 2.

We find in a Liverpool paper of the 23d the the following account of the London market the previous day:

Sugar was in good demand at an advance of 6d, and buyers acted with confidence, several cargoes of foreign having been sold; we find lump quoted at 52@56s.

Coffee fully supported and and average business was done. Teas dull and common Congo was quoted at 9¾.

NEW YORK, August 3.

The *Persia* sailed from Liverpool Saturday, July 24th, and arrived here this forenoon at 11 o'clock.

The steamer *City of Baltimore*, from Halifax July 11th, arrived out on the 22d., and the *Ariel* from New York, arrived at Southampton on the 22d. ult.

European politics are quiet.

The India Bill has finally passed both houses of Parliament; also the bill authorizing the House of Commons to admit Jews.

D'Israeli said that the Government was preparing plans for a commission to the United States for the restitution of suspected slavers.—It is believed it will be satisfactory and accomplish the end.

Trade at Shanghai is unsettled, and Continental affairs unimportant.

Fanatical movements against Christians in Turkey are unabated.

The House of Commons, on the 21st, passed the bill of the Lords to admit Jews to Parliament.

In the House of Commons on the 22d. Mr. Fitzgerald stated that the war steamer *Cyclops* was on her way to Jedda to demand ample compensation and insist on the punishment of the parties concerned in the recent massacre. The *Cyclop* was heavily armed, so that she could execute service.

The Porte was notified that it was not sufficient to send a Pacha to Jedda, but measures must be taken to indicate British prestige in the East.

The House of Lords on the 23d ult., passed by 24 majority, the bill legalizing marriage with a deceased wife's sister.

When the India bill passed, the Earl of Derby stated that the Government would give indiscriminate protection to all creeds and religions in India, but would give no material assistance to any measure for converting the natives. He thought it would be undesirable to attempt to remove the caste.

In the House of Commons, Lord Stanly stated that between January and July 20th, 17,000 troops had been sent to India.

He added that the Government was well aware of the great importance of striking an effective blow at the insurgents.

CHINA.—The news from China is nearly all anticipated. Trade is nearly at a stand at Canton. The new silk crop was reported favorable. Serious alarm was felt at Canton, and large lots of goods were being sent to Hong Kong for safety.

FRANCE.—The statement that the French troops are to be withdrawn from Rome, is positively contradicted.

It was stated that Prince Napoleon would be named as Minister of War sooner or later.

The commandant for the French naval station of Newfoundland, writes that he had established a basis of a treaty relative to the fisheries with the colony, of a nature to give satisfaction to all parties.

The crew of the French ship Maria Caroline had been murdered, and the ship burned, off the coast of Madagascar.

A letter from St. Etienne reports the seizure of three grenades, similar to those thrown by Orsini, and the arrest of twenty persons.

Mr. D'Israeli stated that there had been no communications between the English and American Governments respecting the recent acts of British cruisers, and these communications were now in abeyance. During the abeyance, the U. S. Government had made a friendly overture, that her Majesty's Government should offer to United States a plan for their consideration, which should accomplish the putting down of the slave trade without producing any misunderstanding. Her Majesty's Government had accepted that offer, and were now engaged in the consideration of a plan which they believed would satisfactorily accomplish all the objects, both parties desired. (Cheers.)

INDIA.—Gwalior was captured on the 20th of June. The cavalry and artillery were in pursuit of the enemy. Oude continued disturbed.

A Marseilles telegram says that serious revolutionary movements had broken out amongst the Christian population of Syria. It is said that Tripoli and Latukai are in a state of insurrection.

The *Times'* correspondent on board the Agamemnon, pronounces a wire covered cable totally unfit for a submarine telegraph across the Atlantic, and suggests a thin copper wire covered with gutta percha and greased yarn.

LIVERPOOL MARKETS.—Richardson, Spence & Co., report breadstuffs very dull, with heavy imports, and favorable weather for the harvest, which is commencing in the south of England. Flour very slow of sale, and offered on easier terms; western 21a21s 6d; Philadelphia and Baltimore 22a22s 9d; Ohio 22a24s.

Wheat.—In very limited demand, and selling only in retail at a decline of 1d; red western 5s 6da6s 2d; Southern 6sa6s 2d; white western 6s 2da6s 4d. Corn—Yellow 1s 6da1s lower; small sales; 33s 6d white nominal; 22sa22s 6d prime northern; 27sa32s for New Orleans.

Beef dull and drooping. Pork steady, but the market bare. Bacon has declined on the week 2s per cwt. Lard in great demand and slightly dearer; sales at 55sa56s for good and fine; 57sa57s 6d for choice. Tallow freely offered at lower rates; Butchers' Association nominal at 49s. Ashes dull at 35s for both descriptions.—Sugars firm, and in some cases rather higher.—Coffee firm; Rio steady, but a trifle lower; sales of good Carolina at 20sa26s6d.

LONDON MARKET—Messrs. Baring Bros. report corn quiet at the decline advised per the *Vanderbilt*, 2s on English wheat, and 1s on foreign. Sugars advanced 3a4d.

HAVRE MARKET.—Nothing later than by the *Vanderbilt*.

LONDON MONEY MARKET.—The funds had been firm, and generally higher; Consols 95⅞a96 for money and account. Money was in good supply at 3 per cent.

The bullion in the Bank of England had increased £304,000 during the week.

There has been rather more business in American State securities at improved prices.

A meeting of the Illinois Central Railroad shareholders was held in London on the 22d ult. It was resolved to appoint a permanent London Board, and endeavor to make provision for a regular credit at New York of behalf of European stockholders. A deputation is to proceed to New York to prevent the Company being pledged without the previous concurrence of the London committee.

Arrival of the Steamer Vanderbilt.

NEW YORK, Aug. 2.

The steamer Vanderbilt arrived this A. M., at 5 o'clock, bringing Liverpool dates to the 21st and London on the eve of the same day. She brings nearly 300 passengers; reports very favorable weather for laying the cable. She passed the Ariel on the morning of sailing. The Niagara passed Cape Clear on the 28th and the Agamemnon was off Kinsale the same P. M.

There was an interesting debate in the House of Lords, on the Jedda massacre, in which Lord Malmesbury said all necessary steps had been taken to demand immediate redress from Turkey. There was no intention of occupying Mecca.

The House of Commons discussed at length a motion by Roebuck, that the privileges of the Hudson's Bay Co., about to expire, ought not to be renewed, and that such territory held by them was needed for purposes of colonization, and ought to be assumed by government. The motion was finally withdrawn.

The attempt to raise funds for the completion of the steamship *Great Eastern* has failed, and it is now proposed to raise a new company for purchasing her.

The challenge of the Americans backing Paul Morphy against Staunton, the English Champion Chess Player, for 1,000 guineas, had been accepted by the latter. The contest will commence in September next.

The cotton supply association of England was very actively engaged in collecting subscriptions. They are about to open an exhibition of an extensive collection of cotton samples from various countries.

There has been a sudden change in the programme of Queen Victoria's visit to Berlin.—There is to be no salute, no demonstration as usual on such occasions. The cause of this change is not fully known, but there are rumors of ill-health of the Princess Frederick William.

The Paris *Moniteur* says the French Government will join England in demanding reparation for the Jedda massacre.

LIVERPOOL MARKETS, 21st—Breadstuffs.—The weather in England was favorable, and wheat crops very promising. Richardson, Spence & Co. report flour dull and nominally unchanged. Western 21sa21s6d. Philadelphia and Baltimore 22sa22s6d. Ohio 22sa24s. Wheat quiet but steady, buyers demanding a reduction. Red Western 5s6d a6s3d. White do. 6s3d a6s6d.

Beef dull. Pork steady. Bacon heavy. A slight decline on all qualities. Lard firm at a trifling advance, and selling 56sa57s6d. Sugar quiet. Coffee quiet. Linseed oil 38s6d.

SOUTHAMPTON.—The following dispatch from our Liverpool agent, gives a reliable account of to-day's market: Cotton quiet, but steady, sales to-day 6,000 bales. Flour very dull; prices nominal. Wheat steady at yesterday's rates, but the market quiet. Corn dull and prices almost nominal. Provisions unchanged and steady.

Louisville Election.

LOUISVILLE, Ky., Aug. 2.

In the City Proper, American Judge of Court of Appeals, 228 majority; Clerk, 297; American County officers probably all elected by small majorities. Polls generally quiet.

Dr. Standiford shot Capt. Rousseau dangerously in a fight, partly from an old grudge, and partly from political feeling.

Descent Upon a Gambling House—A Complete Kit Found.

For some time past, it has been suspected that a faro bank was in operation at the Sherman House, on Randolph street, but owing to the secrecy of their movements and the complicity of other persons in the house, it was impossible to get a clue sufficiently strong, to warrant a descent upon the gamblers, without "spoiling the job." Saturday night, however, it became known that the bank was in full blast, and it was deemed best to "pull" them. A posse of police was consequently despatched to the house under Capt. Kennedy and officer Nelson, the latter of whom knew "the lay of the ground," by previous examination of the premises on Friday. They went up through the saloon into the hallway leading to the room. The room is in the north-west corner, in the fourth story of the building, and is the same one formerly occupied for the same purpose by Bush, and subsequently by others. It was fitted up expressly for this purpose, and is well designed for the object for which it is intended. Across the hall which leads to the room a door has been constructed, which must be broken though before the door to the room itself can be reached, thus giving the occupants time to escape by two or three other modes of egress.

Upon the South side of the room is a stairway leading out of the Sherman House into the next building, and thence to the street, or to the roof of the building. Under this stairway is an opening leading through to another room, and thence through a tier of rooms out through a window, from which a plank has been rigged leading to the roof of a stable in the rear of the house. These avenues were, however, too closely watched on Saturday night to be available.

Before leaving, the police found a closet containing some very choice wines, liquors, segars, &c. The floor of it was carpeted, and underneath the carpet was a trap door, about a foot square, which being raised discovered still more "tools" between the ceiling and the floor. In this *cache*, their kit was concealed during the day.

Through both the hall and room doors, the police went pell-mell and were in the room before the gamblers could get their implements off the table. They, however, turned off the gas and bolted for the various doors, but found themselves headed off.

Capt. Kennedy struck a light and found that they had caged six birds, as well as a complete faro kit, consisting of sweat cloth, about a half bushel of checks, tally boxes, packs of cards, and all the other paraphernalia of a faro bank, excepting the deal box. That suddenly disappeared and could not be found.

The crowd were taken to the Armory and locked up. They gave their names as R. Holland *alias* Pol Holland, George Simonds, J. Christopher, J. B. Johnson, G. Wallace and W. H. Howard.

This morning, the crowd were examined before Justice Aiken, and fined as follows:—"Pol" Holland, the lessee of the room, $100, W. H. Holland, who has "dealt," $75, and the others $50 a piece.—*Chicago Journal.*

The St. Louis price current of the 15th ult., says of buffalo robes: "The traders' boats, with the annual season's stocks of robes, are now all in, and it is ascertained that the supplies fall short 40,000 to 50,000 of last year. As the stock on hand, held over in the Eastern cities, is estimated at about 40,000 robes, these, with hunters' recent returns, will make up only the usual season's supply."

Why Not Now?

The Ohio State Democratic Convention, whose doings the *News* eagerly endorsed, before it well knew what they were, adopted the following resolution:

Resolved, That in future we are opposed to the admission of a new State into the Union until the population thereof shall equal the ratio for a representation in Congress, and until, as in the case of Minnesota, its proposed Constitution shall have been submitted to, and approved by a vote of the people.

We desire to call attention to the first part of this resolution: "Resolved, that *in future* we are opposed," &c. Why not *now*, we ask? The reason is simple. When this resolution was adopted, the Democracy were endeavoring to procure the admission of Kansas as a *Slave* State, with a population that less than "equals the ratio for a representation in Congress," and it would not do to repudiate their own action.—The meaning of the resolution is, therefore, that the Democracy desire the admission of a *slave* State, with *less* than half of 93,000 inhabitants *now*, and *that* accomplished, they would prevent the admission of any Free State until it contains a population of *more* than 93,000. The allusion to Minnesota, that the Constitution of future new States, as in the case of that State, "shall be submitted to, and approved by a vote of the people," is only a shallow method of getting around their recent repudiation of the much boasted doctrine of "Popular Sovereignty."

As we have said before, they can put their "popular sovereignty" behind the door when it is convenient to do so. The only occasion upon which their doctrine was fairly tested, was upon the admission of Kansas, and then they flatly refused to allow the people of that Territory to vote. This was to procure the admission of a a Slave State, to strengthen the domineering slave power. It is very easy to adopt a resolution setting fourth what shall be our "future" conduct, but what reason have the people to believe that the leaders of the Democracy—so called—would not, should another favorable occasion present itself, discard their assumed virtue, and adopt any means to gain their end.—The fact is, they have pledged themselves to the South, to the cause of slave labor, and in order to keep up their popularity in the North, they must make high sounding promises of what they *intend* to do, and have some favorite doctrine that is likely to win the public favor, which they take good care to display on all occasions. But their days of power are numbered. They have proved themselves devoid of principle, and the people will hardly give them an opportunity to show the sincerity (?) of the "pledges" which they have so recently "repudiated," and which they are now so humbly renewing.

The New Gold Region.

That gold has been found in considerable quantities in the region of Frazer River, there is now no room for doubt, yet we must make due allowance for exaggeration. It is a good ways from here to Frazer River, and there is no reason, why the proverb that "stories never lose in their carriage," should not be correct in this as in most other cases. But the amount of gold which may be found here, will not be the most important result of the discovery. Were the gold mines of California to become exhausted to day, it would not beggar that State; such an occurrance, would only lead to the more perfect development of her numerous other sources of wealth, and in a short time she would scarcely feel the loss of her gold, but for the discovery of which, however, she could not, for many years to come, have occupied her present position.—Hitherto the difficulties of reaching the Pacific in the vicinity of Frazer River, Washington Territory, and the South-Western portion of the British Possessions have been considered almost insurmountable. Now we hear daily of the practicability of getting there without undergoing extraordinary hardships.

The new gold discoveries, however, would draw emigration thither, though scorching deserts and ice-bergs stood in the way. The climate in this region, it has been satisfactorily testified to, is not what people on this side of the continent usually suppose it to be in the latitude of Washington Territory and the British Possessions to the north of it. It is quite the reverse to that experienced on the Atlantic in the same latitudes, and very favorable to occupation and settlement for agricultural purposes. Another cause which will greatly facilitate the settlement of that portion of the British Possessions, is the liberation of the country from the unlimited rule of the Hudson's Bay Company, which is now certain to take place. That the great tide of emigration which is now pouring thither, will all center upon the gold diggings, is not at all probable. Thousands, when they discover the salubrity of the climate, and productiveness of the soil, will turn their attention to agricultural and other pursuits, and thus this gold discovery will tend to the development of a wealthy country which has hitherto been of little use to the civilized world.

JUDGE COTTON ON THE MORTGAGE STAY LAW.—Judge Cotton of the Green Bay circuit, has recently made a decision touching the validity of the mortgage stay law of the late Legislature.—The Appleton *Crescent* gives the following as the points of the decision: "A motion was made to set aside the summons and complaint in a foreclosure case, on the ground of irregularity, the summons requiring the defendant to answer within twenty days, as provided by the code, instead of giving him the six months to answer, allowed by the late law. The Judge held that the summons was correct, but that a default could not be entered or judgment taken before the expiration of six months. He also held that it was the duty of circuit courts to sustain a law even when its constitutionality was doubted, until it was abrogated by the Supreme Court or the Legislature."

Railroads not a Nuisance.

We learn from the Albany *Times*, that the Supreme Court has just decided that a railroad does not become a nuisance from the fact that its locomotives may endanger life by running through the public streets. The Court holds that the public highways belong to the people, and through the Legislature the people may devote them to such uses as the public convenience requires. Their authority is supreme, and they do not have to ask any one's consent to such use as the public may desire the highways to be appropriated. To build a railroad without authority of law, would be a nuisance which a Court of Equity could prevent, but when the Legislature gives its sanction, it is no longer a nuisance, and no equity can interfere. The Court says that a railroad built by authority of law is not a nuisance, and therefore can work no legal injury, either to the public or any private individual. It may occasion inconvenience or loss, it may depreciate the value of property, and render its enjoyment incommodious and almost impossible, yet it is no wrong which the law can redress. It is essential to a nuisance, either public or private, that it be a thing done, or suffered contrary to law.

A legitimate deduction from absolute dominion of the State, says the Court, is that the Legislature may authorize the construction of a railroad along the line of any street. When thus authorized, the road cannot be denominated a nuisance, and neither the local authorities nor any individual to whom it may work special inconvenience, can successfully interfere to prevent its construction.

SWIMMING MATCH AT MADISON.—The Madison papers of Monday contain a lengthy account of a swimming match, which came off at that place on Saturday afternoon, for a silver goblet. There were five competitors for the prize, the one who remained in the water swimming the greatest length of time being the winner. The following is the result of the match:

P. Dilz, 45 minutes.
E. Diedereck, 1 hour and 12 minutes.
G. Rees, 2 hours and 9 minutes.
R. Livecy, 4 hours and 24 minutes.
F. B. Hutching, }
L. Holtz, } 5 hours and 37 minutes.
N. Frederickson, }

The last three, at the urgent solicitation of their friends, agreed to come out and draw lots for the cup, as none of them manifested any inclination to give up, and it was evident that their determination to win would lead each to exert himself to an injurious extent. They consequently all agreed to come out together, after being in the water *five hours and thirty-seven minutes*, swimming constantly, without the privilege of floating, or swimming upon their backs. The prize fell to F. B. HUTCHING, who received it from the hands of the Mayor of the city. It is the intention to get up another match in the course of a week, to swim a given distance, the one making the quickest time being the winner. Several expert swimmers from Milwaukee are expected to enter for this match.

THE CANADA COAL HUMBUG.—The Toronto *Globe* furnishes the particulars of the great coal swindle at Browneville, near that city. JOE BALSDEN, the miner, who professed to have discovered remarkable indications of coal in surrounding wells, acted the part of a deceiver throughout the whole matter, and, afterwards, one of the BATES', proprietors of the farm, and also ELLSWORTH, who conducted the boring operations, joined in the humbug. They obtained the coal without attracting observation, and crammed it down the hole which they were boring. It is difficult to understand the exact motive of BATES in the matter, since we cannot learn that he made any attempt to sell the land or otherwise to profit by the pretended discovery.

REPORTERS.—An exchange paper thus describes that very useful, but much decried portion of the community—without whose aid many a public man would have been compelled to "tarry at Jericho until his beard was grown,"—the reporters:

> How many a great man is now basking in the sunshine of fame generously bestowed upon him by the prolific genius of some reporter! How many stupid orations have been made brilliant, how many wandering, pointless, objectless speeches put in form and rendered a least readable by the unknown reporter. How many a disheartened speaker, who was conscious the night before of a failure, before a thin, cold, spiritless audience, awakes delighted to learn that he has addressed an overwhelming assemblage of his enthusiastic, appreciating fellow citizens, to find his speech sparkling with "cheers," breaking out into "immense applause," and concluding amidst "the wildest excitement!"

SEIZURE OF $80,000 WORTH OF CUBA SUGARS IN NEW YORK AND BOSTON.—We hear of the seizure by the United States authorities, of about eighty thousand dollars worth of Cuba box sugars at New York and this port, under the following circumstances:—The seizure at New York took place several weeks since, and consisted of several cargoes sent by one firm in Cuba, and the whole valued at about $80,000.—This sugar was consigned to two firms of the highest respectability in New York, one of which is Messrs. Maitland, Phelps & Co. The article was sent to them by a Cuba firm of only a few years standing, who, it appeared, had invoiced the sugars below their value, and had not included the cost of the boxes, upon which a duty is also levied. Upon the firms to whom the sugar was consigned, the Cuba merchants had, however, drawn for the full value of the consignment, including the cost of the boxes, and in some cases, we understand, these drafts had been accepted and paid. After the seizure, a member of the Cuba firm came to this country and proceeded to Washington to arrange the matter.

He attempted to induce the Secretary to give an order for the redelivery of the sugar, but without avail, as the proofs of undervalue are quite strong. We understand that by order of Collector Austin, box sugars sent here by the same Cuba firm, of the value of twenty thousand dollars, have been seized within a day or two, under allegations of a somewhat similar character to those of the New York importation. In this case some of the sugar had passed into second hands, Mr. Jonathan Cottle, grocer, of Congress street, having some two hundred boxes, on which he probably, will meet with no loss.—In this case the consigners were not aware of the "irregularity" until informed of the fact by the Custom House authorities, and are therefore perfectly free of any implication in the matter.

The sugar was imported in the British brig A. C. Robbins, from Havana, which reached this port on the 11th of last month. It was consigned to C. O. Whitmore & Co., and in addition to the lot sold to Mr. Cottle, about two hundred boxes had been purchased by Messrs. Manning, Stanwood & Co.—*Boston Traveler.*

SHOCKING SERVANTGALISM.—A lady of Dubuque, boarding at the Tremont House, was the happy owner of a dress of unusual magnificence and value. It had been her wedding robe, and had cost $500. The lace of which it was partly composed and decorated was of the finest point, of the most delicate finish, and of the highest price, while the fabric of the dress itself was matchless for its elegance. Although a number of months had elapsed since her wedding, the lady had never wore this beautiful dress but once, but had kept it laid carefully away in one of her trunks. On the 4th of July a servant girl belonging to the hotel, went clandestinely to the lady's room, and in her absence opened her trunk, and selected this $500 dress as the one which pleased her fancy the most. Taking it to her own room, she arrayed herself therein, and proceeded to the National Garden where she spent the entire day.

She returned at night, slipped up to the lady's room again, replaced the dress in the trunk, and skulked away again.

No discovery was made of this fact until a day or two since, when the lady opened the trunk containing the dress, having made up her mind to wear it to a wedding party that evening.—What was her horror, on taking out the beautiful dress, to find the skirt of it all bedraggled with mud; the front stained with drippings of lager beer; the breast bearing the impress of the hands of the amorous swains with whom the girl had whirled through the mazes of the waltz; and the lace torn and soiled beyond redemption!

An examination set on foot soon brought out the facts in the case, and the ambitious maid will be brought up this afternoon to receive her punishment.—*Dubuque Times.*

Foul Murder—Arrest of Graham and Hardy—Trial and Discharge.

A most foul and diabolical murder was committed in the rear of the city on Sunday evening, the 18th inst., or not to be positive as to time, the dead body of Samuel Johnson, who was missed by his friends on the evening mentioned, was found on Thursday, following, near the Opdykes spring. The body was first discovered by some boys who were going through the woods. They came to town and gave the information of what they had seen. The Coroner summoned a jury, proceeded to the place where the body was, and held an inquest. A severe bruise was found upon the side of the head, and the neck was broken, disclosing the fact too plainly that the deceased had met death by foul hands.

When this news had reached and spread over the city, an intense feeling of excitement was created. A united and spontaneous effort to discover the murderers was instantly set in motion. By the next evening a chain of circumstances had been discovered which threw suspicion upon one August Graham and William Hardy. They were arrested, and brought before Justice Servant on Saturday. A preliminary examination was commenced, Mr. Allen appearing on the part of the people, and Mr. Neville for the defense.

The testimony disclosed the fact that the deceased man, Johnson and Hardy were together at Phillips' grocery from between one and two o'clock on the evening above referred to, until about four o'clock; that they and others left about that time. About half after four o'clock, Graham and two other men were seen near the back part of town, going on out. Neither of the witnesses who knew Graham, being acquainted with either Johnson or Hardy, could identify them as the companions of Graham at that time. One witness who knew Johnson, saw him and two other men going out about the same time in the evening, but not knowing either of the defendants, could not say that they were the men he saw in company with Johnson. Here the testimony left them until about sundown, when the defendants were seen coming from under the hill. They went out beyond the M. E. church, and then returned to Phillips' grocery. There was no testimony to show that they had gone beyond the limits of the town in either of the trips referred to, and no testimony to show that the deceased and defendants were certainly the three men seen by several of the witnesses going out between four and five o'clock, hence the Court discharged them. The testimony was voluminous, and wove a net of circumstances that created the strongest suspicions of guilt against Graham, and but little less against Hardy, yet it was not sufficient to warrant the Court in holding them for trial in the Circuit Court. Though the excitement and suspicion against the parties on trial had been worked up to a high degree, the result of the examination was generally acquiesced in, the public believing with the people's counsel and the Court that the testimony was not clear and strong enough to hold them, only enough to justify the suspicion and examination.

Mr. Johnson, the deceased, was a stranger here, having been in the city for a short time, engaged, we believe, in company with another man, in selling out a raft of lumber, which they had brought down the river.

Augustus Graham, one of the accused is a professional gambler, who was on a visit to our city, perhaps in the pursuit of his profession. He is rather heavy built, or much bloated by liquor, wears his hair long, which hangs about his neck in massive dirty curls. His appearance is that of the rowdy of the deepest shade. We question whether the five points of New York could produce a character whose face wore a more fiendish and diabolical expression.

Mr. Hardy, the other defendant, is a miller by trade, rather gentlemanly in his appearance, and deported himself through his examination more like an innocent than a guilty man. We trust he is clear of the foul deed with which suspicion has connected him, but that suspicion will hang about him until the real murderers are discovered.

From the Wheeling Intelligencer, July 26.

A Strange but True Story.

A great many strange things happen, and entirely escape public attention, which, if made known, would induce more than a passing remark. For a long time we have heard nothing stranger or truer than the story we are about to relate. When Thomas Galloway was twenty-four years of age, he married a widow lady about the same age, in a village away down in the State of Vermont. This lady had a daughter, Mary, by her first husband, who at the time of her second marriage, was two years of age.—Just one year after Galloway's marriage, his wife died. Little Mary was sent to live with a family named Pluckett, in a neighboring village, and Galloway left upon a whaling or some other expedition. He cruised the wide world and the wide seas over, wandering from place to place, and finally settled in Dearborn county, Indiana, twenty years having elapsed since the death of his wife. He afterwards thought of visiting his old Vermont home, but he had heard from good report that his only brother, John, had left the place soon after his own departure, and that little Mary had grown up to womanhood, married, and emigrated he could not ascertain where.—Having no other ties to draw him to the place, he scarcely ever gave it a passing thought.

Shortly after settling in his new Indiana home he became acquainted with a young widow, and notwithstanding the disparity in their ages, married her. Some three weeks after this marriage, he discovered, by his wife's account of her early life, that she was no other than his own step-child, Mary. She had married five years before, and her husband, James Lachlan, met with a violent death in a clearing two years afterwards. About three years after Galloway's second marriage, he happened one day to be in Lawrenceburg, on the Ohio river, six miles from his residence, when a man by the name of Galloway was drowned off a steamer at the wharf. The body was recovered in Galloway's presence, and from the appearance of the features and the corresponding name, he began to entertain a vague idea that it might be his only brother, John.—Information gained from the captain of the boat, strengthened the suspicion he had formed, and ascertaining that the unfortunate man had a family in this vicinity, and at the time of his death was on his way to the West to enter land. Galloway resolved to return with the captain and find out the truth. He did so, and found his suspicions correct. His brother had left a tract of land, a large family of children, for the most part girls, and a wife in ill-health. After consulting with his deceased brother's wife, he concluded to take charge of the farm. Accordingly he went back to Indiana, sold his effects there, and in company with his young wife, returned and has been living within six miles of this city for a length of time, now going on ten years.

This story is literally true, with the exception of the names of the principal characters, which we are forbidden to use.

☞ We subjoin two or three piquant scraps from Prentice:

A Washington correspondent of the N. Y. Express calls the officers of the Government 'treasury buzzards.' A pretty large proportion of them belong to a different species of birds. Many a one of them is A-ROB'IN.

The Washington correspondent of the Baltimore Patriot advises James B. Clay to 'cast the beam out of his eye.' No doubt he would if he could sell it for walking canes.

Another scurrilous Democratic paper has just died in Tennessee. It was a small potato, and probably its disease was the potato-rot.

☞ The Danbury *Times* says that a woman who had been divorced from her husband on account of his drinking propensities and consequent cruelty, married him again on his reformation during the great revival. But the husband fell into his old habits, and a short time ago, in a fit of intoxication, returned to the house of the woman he had twice married, and committed to the flame every article of her wearing apparel upon which he could lay his hand. For the betrayal of her trust in this and other acts, she now positively declares that she will *never marry him again.*

☞ Newspaper reporters should not drink.—Here is a story handed in by one of the craft, which shows in very strong colors the manner in which things become distorted by viewing them through the bottom of a tumbler:

"Yesterday morning, about 4 o'clock P. M., a man with a heel in the hole of his stocking, committed arsenic by swallowing a dose of suicide. The verdict of the inquest returned a jury that the deceased came to the facts in accordance with his death. He leaves a child and six small wives to lament the end of his untimely loss.—In death we are in the midst of life."

PIETY AND PROFITS.—A gentleman who employs a great number of hands in a manufactory in the west of England, in order to encourage his work people in a due attendance at church on a late fast day, told them that if they went to church they would receive their wages for that day in the same manner as if they had been at work. Upon which a deputation was appointed to acquaint the employer that if he would pay them for over hours they would attend likewise the Methodist chapel in the evening.

SUCCESSFUL EXPERIMENT.—Some weeks since we stated that Dr. Parmelee, of this village, was testing the plan of growing potatoes upon the surface of the ground, with only a slight covering of tan-bark; and to day we dine upon large and luscious potatoes, of the Carter variety, grown beneath that bark—the experiment having been entirely successful.—*Chenango (N. Y.) Telegraph.*

From the Independent, 23d.

Dr. Livingstone at the Cape of Good Hope.

We have news of the safe arrival of Dr. Livingstone at the Cape of Good Hope, and of the warm welcome which he there received from his friends. A public dinner was given in his honor, at which, in a modest speech, he explained the manner in which he designed, in his second expedition, to follow up the discoveries which he made in his first.

Efforts have been made for centuries to get into the interior of Africa, but, unfortunately, they have always been attempted through the unhealthy parts near the coast. On the Southern part of the country, Dr. Livingstone's first expedition encountered the Kalbihari desert, and the expedition which was sent out from Cape Town under Dr. Smith, was prevented from penetrating the interior from the same cause. The unhealthy coast presented a barrier on both sides; but Dr. Livingstone and his companions succeeded in passing around it, and found a new and well watered country beyond.

"When I passed into that country," he says, "I had not the smallest idea that there was such a want of cotton as I found to be the case when I went home to England. But there I saw the cotton growing wild and almost everywhere, and that sugar was collected all over the country."

The new expedition is to proceed first up the river Zambizi, the Portuguese having given full permission for the exploration. The river is very large, being equal in size to the Thames at London Bridge. It was not known formerly to be a large river, on account of its being separated into five or six branches at its mouth before it reaches the sea. Dr. Livingstone found, 250 miles of the stream navigable without a single obstruction. A large coal district was found above it, which the traveller describes as "seeming to contain the elements of future civilization." This region will be explored by the expedition, after which further explorations into the interior will be directed according to circumstances.

A WHITE SLAVE RECLAIMED OWING TO MRS. STOWE'S KEY TO UNCLE TOM'S CABIN.—Benjamin Davis & Bros., of this city, received a few days since a letter from a person named Miles Owen, which contains the following statement:

In 1834, one Gorman Goodloe sold H. T. T Miller, in Natchez, then Postmaster there, a yellow woman and her child. When Miller died the slaves became the property of Owen by purchase. In 1839 Owen sold the woman, whose name was Atwell, and in 1847 he sold the boy to G. D Ragland, of Alabama, by whom he was taught the trade of brick-mason. In 1852 the boy ran from Ragland and went to Pittsburgh, where he assumed the name of George Washington, and passed himself off as a white man and married a white woman, by whom he had a child. A man named Shaw, also a mason, who had worked in Alabama, saw the boy in Pittsburgh, but could not place him until he read Ragland's advertisement in Mrs. Stowe's "Key to Uncle Tom's Cabin," when he at once recognized him as Ragland's property. Shaw immediately communicated with Ragland, and received instructions to watch the boy's movements, which he did for five years.

Last Winter he missed him, but on inquiry found he was in St. Louis, Missouri. He immediately proceeded to Alabama, had an interview with Ragland, who sent a man with him to St Louis. When they got there they found that the boy had gone to Brunswick, in the same State, where they followed and succeeded in arresting him. They then took him to Alabama to his master. Shaw returned to Pittsburgh, but immediately on arriving there the boy's wife had him arrested "for attempting to decoy off and carry into bondage her husband." He was thrown into jail in default of finding bail to the amount of $8,000, and has been there since last March. The penalty for the crime with which he is charged is a fine of $2,000 and confinement in the Penitentiary for not less that five nor more than twelve years, and he will suffer this unless he can clearly show that the boy was a slave.

The object of Owen writing to the Messrs. Davis is to find some trace of Goodloe, and ascertain from him from whom he purchased the woman Atwell and her child, and procure some witness from among the family who owned them who will go to Pittsburgh in October to testify in behalf of Shaw. The boy was too small in 1834 to remember anything of his master, and it is not known whether the woman Atwell is alive

Owen says that he attended the trial of Shaw in Pittsburgh in June, but it was adjourned. All the expenses of the witness will be paid.—*Richmond South, July 24.*

Having enlarged their

MANUFACTURING DEPARTMENT,

The stock will be principally of their own make, and warranted in all cases.

Enamelled Chamber Furniture,

Elegant designs and superior workmanship will be offered to the public at

Twenty-Five Per Cent. Less!

Than it can be furnished from the East.

THE PROPRIETORS,

Well aware of the impression existing, that a Store must be on East Water street to secure general trade, (as an offset) pledge to the public, that the

Interest of Buyer, or Seller,

will be promoted by this change. With double the capacity of store room, and one half the amount of rent, we feel willing to test the question.

NO PERSON IN THE CITY

or parties that may visit it for the purchase of Furniture, should fail to examine

OUR MAMMOTH STOCK,

before making their purchases.

To the Public at Large,

We are prepared to prove every assertion we have made, that Furniture of every grade, from the kitchen to the parlor, will be furnished from our Establishment, at prices lower than any house in the city.

THE REASON WHY,

will be shown at our Sales Rooms.

EYE AND EAR INFIRMARY!

MEIGS CASE, M. D.,

OPERATOR UPON THE EYE & EAR.

LECTURES ON THE EYE.

A FEW WORDS in their place may not be inappropriate in regard to ophthalmic medicine and surgery, both on account of the great prevalence of ophthalmic diseases in the United States, and the general misapprehension as regards their nature and treatment by the world at large, and (I am free to confess) by the medical profession generally.

I refer to the idea which is entertained by so many, that a routine treatment consisting of some certain eye water or ointment "is good for sore eyes;" thus making no distinction between the infinite varieties of ophthalmic diseases.

For the information of such persons it perhaps would be well to state that over 275 different affections of the eye and its appendages are enumerated in books devoted to the subject, all totally diverse and different in their nature, and requiring different measures for their alleviation or cure.

As to the importance of the subject it will be hardly necessary to enlarge upon a question which takes the form of a self evident fact.

Every one feels that sight is the most valuable of the senses, that is, the most important inlet of knowledge, the most valuable means of communication with surrounding persons and objects, and that it is also essential to the full enjoyment of our other senses, so that these lose more than half their value when sight is gone.

Hence blindness is one of the greatest calamities that can befall human nature short of death, and some perhaps would prefer the termination of existence to its continuance in the solitary and dependant state to which life is reduced by the privation of this precious sense.

Loss of sight is the greatest misfortune even to the rich who can alleviate it by purchasing the aid and services of others. How much more severely must it be felt by the poor by the middle and lower classes of society, that is by the great majority of mankind, who being rendered incapable of labor and having their minds uncultivated, find their existence reduced to a dreary, blank, dark, solitary and cheerless; burdensome to themselves and those around them.

Even the poet Milton, who might have been supposed to have found every alleviation and resource that such an affliction admits of in his highly gifted mind and the exhaustless stores of knowledge with which he was furnished, repeatedly reverts to his blindness, and always in a tone of anguish and dependency, characteristic of recent misfortune.

"Thus, with the year,
Seasons return; but not to me returns
Day, or the sweet approach of eve or morn,
Or sight of vernal bloom, or summer's rose,
Or flocks, or herds, or human face divine;
But cloud, instead, and ever during dark
Surround me. From the cheerful ways of men
Cut off, and for the book of knowledge fair,
Presented with a universal blank,
Of Nature's works to me expunged and rased
And Wisdom at one entrance quite shut out."

AT THE MILWAUKEE Venerial Hospital, established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by Dr. Barnes.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 19 Wisconsin Street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charge for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

MOONBEAMS.

A sparkling gem—extracted from one of the English periodicals, where it appeared anonymously.

Over fields of thymy blossom,
Over beds of dewy flowers,
Now upon the streamlets bosom,
Now within the whispering bowers,
Soft and slow,
The moonbeams go
Wandering on through midnight hours.

Lightly o'er the crested billow,
Where the heaving waters flow,
Where the sea-bird finds her pillow,
There the glistening moonbeams go—
Soft and slow,
Soft and slow,
Ever wandering, soft and slow

Queen of beauty, robed in splendor,
Finds thy silent foot no rest?
Looks thy smile, so soft and tender,
Ne'er upon a kindred breast?
Soft and slow
Thy footsteps go,
In their silver sandals dressed.

Queen of beauty! canst thou ever
Thus thy lonely task fulfill?
Sister voices, never, never,
Answering thee from bower or hill!
Soft and slow
As winter's snow,
Fall thy footsteps, cold and still.

Silent moon! thy smile of beauty
Fainting hope will oft renew;
Teach me, then, thy holy duty,
Waste and wild to wander through.
Soft and slow,
Still to go,
Patient, meek, but lonely too.

From the New York Tribune.

The Army at Salt Lake City.

The letters of our special correspondent in Utah, which we publish to-day, contain full and interesting details of the sayings and doings in that city and its vicinity, down to July 3d, which is the latest date of any accounts yet received from Utah. The army marched through great Salt Lake City on Saturday, the 26th of June, the city still remaining deserted, the houses unoccupied, the windows boarded up, and the few male inhabitants left to guard the houses and tend the gardens keeping within doors, and affecting to take no notice of what was going on. On the other hand, the army was equally nonchalant, since no notice was taken of and no salute paid to Gov. Cumming, who alone of the householders in the city stood out on his porch to pay due honor to the spectacle. Apart from this rather gloomy reserve on both sides, everything was conducted with the greatest decorum. The soldiers were kept strictly to their ranks, and there was no cheering nor laughing. In fact there does not appear to have been much to cheer at, and still less to laugh at, except the army had taken to laughing at itself, and the contrast between this quiet entry into Salt Lake City and the triumphant march if not the bloody fight and glorious victory which had been so fondly counted and so confidently expected.

The army merely passed through the city, and crossing the river Jordan by a bridge, encamped five miles off in a dusty pasture. No soldier was allowed to recross the bridge without a written permission. After remaining in this camp over Sunday and Monday, the army marched on Tuesday to a point twenty miles southward, followed by poor Chief Justice Eckel, who had found it utterly impossible to get lodgings in the city except at Marshal Dotson's, whose small house of two rooms and a pantry was already occupied by twenty-one lodgers. All the other Gentiles who had followed the army were in the same predicament, no lodgings to be had for money, and board only at the Church Eating-house, at the rather costly rate of three dollars a day. These gentlemen were beginning to realize the wisdom of the old proverb as to the great difference between leading a horse to the water and compelling him to drink. The army has entered the valley of the Salt Lake, the civil officers are there, the Mormons have promised submission to the laws—but Mormonism is as rampant and the influence of Brigham Young as potent as ever.

No sooner has the army gone than Brigham turns up again, followed a day or two after by bag and baggage, wives and children. The boards come down from the windows, and Salt Lake city was beginning to be active. The next will mail bring us, we suppose, an account of Brigham Young's Fourth of July sermon and oration.

Meanwhile, Gov. Cumming has been taking steps to rid himself of that portion of the civil officers who do not sympathize with his conciliatory system of action. This fact has come to the knowledge of these gentlemen, and though the attractions of Utah as a place of residence would not seem to be very great, at least to persons of their turn of mind, it has produced a good deal of commotion among them. This application will doubtless be successful, if, indeed, as is very probable it has not been anticipated already.—There is one statement of our correspondent which merits special attention. Much as the Mormons stand in need of religious enlightenment, they have never been visited by a Christian missionary of any sort, except, indeed, an agent, or pretended agent of the Bible Society, who turned out to be a wolf in sheep's clothing. Even the army sent to sustain the cause of religion and morality, is unattended by a chaplain.

A BABY ON A PIC-NIC LEFT IN THE WOODS—DISCOVERED BY DOGS.—A few days since, a large party of persons left this city in the Baltimore cars to enjoy a pic-nic at Fairview, near Chester. Among the pleasure seekers were a gentleman, his wife, his wife's aunt, and a child about three months old. The day was pleasantly spent by most of the party, but the wife was taken sick, and she placed the darling infant in the hands of her aunt to be taken care of. The aunt attended to its wants with all the care of a mother, and when the whistle sounded for the party to take the cars to return to the city, the infant was sweetly sleeping, and the aunt, being a little nervous, feared she would be late for the cars, in consequence of the fact that she had left her bonnet in a part of the grove some distance from where she stood, when the notice to leave was given. To facilitate her movements, she spread her talma upon the ground, laid the infant gently upon it, and then started for the spot where her bonnet had been left. The head gear was found, but unfortunately, the aunt, in her hurry and fear of being too late, took a different direction on her return from that in which she had started, consequently she missed the baby; but still she thought she had reached the right spot, and not finding the darling, concluded that the mother or father had picked up the child and got into the cars. With this belief she reached the train and contentedly took a seat, but in a car some distance from the one occupied by the parents.

The train sped on, the mother thinking the aunt had the child, and the aunt thinking the same thing about the mother; but on the arrival of the cars at Broad and Prime streets, lo and behold, no child was to be found. Dismay sat upon each countenance, and fears of the worst kind seized upon the party while talking of the probable fate of the child. The father did what all sensible fathers would have done, hired a horse and carriage and started back in haste for the pic-nic grounds. The distance being considerable, we will, while the father is pursuing his sad and lonesome journey, relate how the infant was discovered and taken care of. It appears that two brothers of this city board near the grove in which the party was assembled, and that the nurses of their children were in the habit of taking the little ones to the depot each afternoon to meet their father. This particular afternoon, the nurse had her attention attracted by the barking and gambols of a dog, and on going to the spot, found the baby sleeping sweetly upon the ground. Just at this time one of the gentlemen referred to came along, and directed that the child should be taken home. On arriving there, a friendly dispute arose among the ladies, "who should take care of it," as there was something romantic in the idea of finding a baby in the woods. The matter was finally settled, and the lady who obtained possession made such arrangements as would provide for the wants of the child, and when she retired for the night the baby was placed by her side; but about 12 o'clock at night the household were aroused by loud knocking at the door, which, on being opened, disclosed the anxious face of the father. The child was of course given up, and the fond parent returned with all haste to gladden the heart of his almost distracted wife.

G. SIMMONDS,
SOLE PROPRIETOR AND MANUFACTURER OF
PURE OHIO
Catawba Brandy.

THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.
The Ohio Catawba Brandy, not only equals but excels the best Imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.
The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for
Dyspepsia, Flatulency, Cramp, Colic, Languor, Low Spirits, General Debility, &c.
NO FAMILY SHOULD BE WITHOUT IT.
RETAIL PRICE $1,25 PER BOTTLE.

IRON WORK.

Eagle Steam Foundry,
Nos. 294, 296, 298, 300, 302 and 304,
WEST WATER STREET, MILWAUKEE.
THE OLDEST ESTABLISHMENT IN THE CITY
TURTON & SERCOMB,

MANUFACTURERS of Steam Engines and Boilers, Flour and Saw Mill Gearing, Brass and Composition work, together with Castings of all descriptions.
Also manufacturers of the celebrated Haviland & Tuttle Patent Centre-Vent Water Wheel. It uses less water, in proportion to the power given, than any other wheel manufactured. It is adapted to either high or low heads of water, runs perfectly steady, and is not affected by ice or back-water, only in the loss of head. In addition to this, it can be sett with but little delay, and at no greater expense than ordinary wheels. It has given general satisfaction to all who have used it, and that, together with its durability, having been used in Messrs. Ludington & Co's Mill over seven years, without one dollar expense, gives it an entire superiority over all other wheels. Descriptive circulars forwarded on application.
Mill Stones, Bolting Cloth, Seive Wire, and Mill furnishings, of all descriptions, at the shortest notice.
We have always on hand a large supply of Turton & Son's celebrated Files.
Also, Steam and Water Cocks, Steam Guages and Whistles, Oil Pumps and Cups. Lignum Vitae of all sizes.
☞ Steam Engines of different capacity always on hand. Terms Cash.

Especial attention given to Insurance of DWELLINGS and Contents, for terms of 1 to 5 years.

The progress of this Corporation has been stable and uninterrupted through seasons of financial sunshine and storm, or periods eventful in or exempt from sweeping conflagrations and maritime disaster. Being long established on a cash basis, the troubles of the credit system affect us in no material particular.
During "hard times" the security of reliable Insurance is an imperative duty—the ability of property owners to sustain loss being then much lessened.

Office, No. 1 Kneeland's Block.

CITY LOTS. LOTS. LOTS. LOTS. LOTS. PALMER & CO'S Addition. No. 21. One mile and a half from the Spring Street Bridge.	We have laid off the balance of our original purchase on Spring street into lots, and now offer them on the same terms as heretofore, viz: *On each hundred dollars of purchase money five dollars in advance, and three dollars per month thereafter until paid WITHOUT INTEREST.* The lots are beautifully situated on high ground in a healthful locality, and embraces some of the finest views about the city. They will bear examination.

The very low price at which they will be sold, together with the terms, commend them to the attention of all classes who desire a home and exemption from rents.—Young men, mechanics and laboring men, and tradesmen of small means have here an opportunity to invest that is within their reach. We have an agent on the property every day, after 2 P. M., to show the lots.

GRAIN CLEANER & SEPARATOR
HORTON'S PATENT
G. B. BINGHAM & BRO.,
Sole Manufacturers in Wisconsin.

THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Scourer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are confident it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire proof, not liable to get out of repair, requires but little power to run it, and the scouring cylinder so constructed as to render it unnecessary to be renewed for years. We respectfully invite all Western Millers to give us a call, and examine our machine, at the Bay State Foundry, Florida st., Milwaukee, Wis. fan16f97d1y

MARINE INTELLIGENCE.

SCHOONER STEVENS.—The sch. Wm. H. Stevens, from this city, passed Detroit the 29th ult., and got aground at the head of Fighting Island. The tug Emerald succeeded in getting her afloat, and she continued her voyage to Buffalo without having sustained any damage of consequence. It was necessary to lighten 2,000 bush. of wheat, and she was quite lucky by getting off so well.

SCHOONER ASHORE.—We learn that the schooner Island Queen, bound from Port Huron for Chicago with from 50 to 100,000 feet of lumber, was driven on the foot of Bois Blanc Island, Lake Huron, in the southeaster early last Thursday morning. She is hard on, in only about three feet water, and her hull has filled. The tug Oswego, Capt Kimball, has gone to her assistance, with two steam pumps.

The Island Queen is owned by H. A. Prescott, a resident of Lawrence, Mass. She is insured in the North-western.—*Detroit Tribune.*

MOTHERS! MOTHERS! MOTHERS!

DON'T FAIL to procure Mrs Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never-failing success in millions of cases.

We believe it is the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arise from teething or from any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well-tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

None genuine unless the fac-simile of CURTIS & PERKINS, New-York, is on the outside wrapper.

Sold by Druggists throughout the world. Office No. 13 Cedar street, New York.

AYER'S CATHARTIC PILLS.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel the disease. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of numerous complaints.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

A Pleasing Appearance is the first Letter of Recommendation.

GODFREY'S
EXTRACT OF ELDER FLOWERS
For softening the Skin and improving the Complexion.
EUGENE DUPUY, 609 BROADWAY, N.Y,
Sole Agent for the United States.

THE object of this Circular is to give publicity to the most valuable and efficient Remedy that has yet been introduced in the practice of Medicine, for the purpose of removing every unsightly appearance from the Skin, and preserving to it to the latest period of life nearly all the firmness and freshness of youth. Extensive experience and minute observation have long satisfied the Proprietor that if applied as directed it will speedily remove any unsightly appearance, such as Tan, Sun-Burn, Freckles, &c., and quickly cure all Pimples, Humors and Eruptions which may disfigure the countenance; and will also impart to the Skin the most delightful softness and delicate clearness; in short, to preserve a pleasing complexion through life, nothing is required but the use of Godfrey's Extract of Elder flowers, the sweetest and really the most perfect beautifier in Nature. This admirable preparation of Elder Flowers is very fragrant as a perfume. Elder Flowers have from the earliest ages been esteemed as a mild and harmless, yet most perfect beautifier of the Skin. Tan, Sun-burns, Freckles, Redness, &c., it will speedily and completely remove.

CHILDREN.—It is singularly beneficial and perfectly innoxious, even to the youngest infant.

SHAVING.—It is valuable beyond anything, annihilating every pimple, and all roughness, rendering the skin soft and firm, preparing it so completely for the razor.

FAMILY LOTION.—Godfrey's Extract of Elder Flowers will be found beyond all praise, and needs only a trial to be approved.

AGENTS.—Cary, Howard & Sanger, New York; Schieffelin Bros. & Co., New York; J. W. Norcross & Co., Boston and New York; F. C. Wells & Co., New York. And all other Wholesale and Retail Dealers.

FARM FOR SALE.

SITUATED one half hours ride from town, on a good plank Road. The farm contains eighty acres sixty-five being improved. Of this, thirty-five acres is meadow land, and the balance sowed with grain. The whole farm is divided in lots of ten acres each, and well fenced. The farm house is new, having been built by the present owner to occupy himself. The property also contains two new and large barns, with outhouses complete. Also, a large orchard with a great variety of choice fruit.

The present owner, having changed business, is desirous to sell, and will offer the property low, and on good terms, or would exchange for city property.

For particulars enquire at the Lumber Office of H. Ludington & Co., West Water Street. wei6 e811-dtf
